3. Product description

Product name: special pallet / wooden pallet

Material: solid wood, MDF / HDF board, metal fasteners

Intended use: pallet for the transport and storage of goods

4. Fulfilment of the applicable requirements of Regulation (EU) 2025/40 (PPWR)

Article 5 – Requirements for substances in packaging:

The packaging complies with the applicable legal requirements concerning the content of substances. It does not contain prohibited or restricted substances. The total concentration of heavy metals: lead (Pb), cadmium (Cd), mercury (Hg) and hexavalent chromium (Cr(VI)) is below the limit value of 100 mg/kg. Per- and polyfluoroalkyl substances (PFAS) are not used during the production of the packaging. In addition, the packaging is not intended to come into contact with food.

Article 6 – Recyclable packaging

After the end of use, the pallets may be reused or subjected to material recycling or thermal recovery. The material used is recyclable.

Article 7 – Minimum recycled content in plastic packaging

Not applicable, because the pallets are not made of plastic.

Article 8 – Bio-based feedstock in plastic packaging

Not applicable, because plastic elements are not used as packaging material.

Article 9 – Compostable packaging

Not applicable.

Article 10 – Packaging minimisation

The packaging has been designed in such a way that its weight and volume have been reduced to the technically necessary minimum, while maintaining the required functionality, safety and performance parameters.

Article 11 – Reusable packaging

The packaging is used to secure the load and may be used multiple times, provided that it remains in a suitable technical condition, or subsequently subjected to material recycling or thermal recovery.

5. Responsibility

We declare the conformity of the packaging component indicated above **based on technical data provided by the manufacturer** and assume responsibility for the formal preparation of this declaration.
